From Earth to the Universe

3:00pm - Public Show:
New Horizons

7:00pm - Public Show:
Phantom of the Universe

THIS WEEK IN THE DOME

Robison Planetarium Launches New Show Time

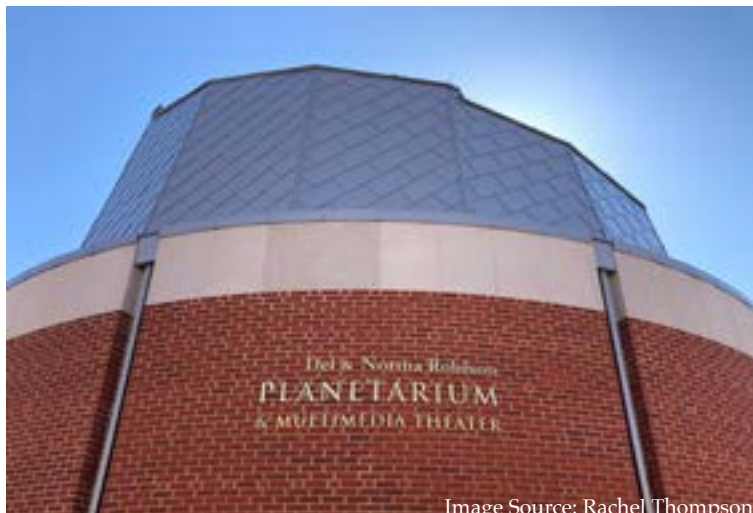

Image Source: Rachel Thompson

This past weekend, the Del and Norma Robison Planetarium launched a new Saturday public showtime. Yes, that's right—this week's space story is about us. That's show business.

In efforts to make the planetarium more accessible to students and the community, the staff has decided to test out a 7:00pm showtime on Saturdays. The normal matinee times of 2:00pm and 3:00pm will still be offered every week, and the ticket price is still \$5.

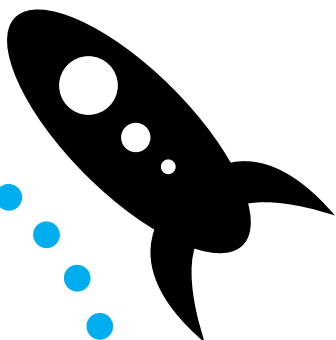

A typical planetarium show consists of a 20-30 minutes full-dome video show followed by a guided tour of the stars. The full-dome video shows change every week, and the guided tours are influenced by audience request.

The evening showtime isn't set in stone, however. Depending on audience response and attendance, the planetarium may choose to continue or end the evening show slot.

Tickets for any of the shows at planetarium can be purchased online at planetarium.truman.edu or at the door.

Space Fact #029

Mars is home to the largest known volcano in our galaxy!
