

# The *Weekly Dome Report*

Week of November 18th, 2019.....Volume 17.....Space News and Stuff

## Upcoming Events:

Monday, Nov. 18th

6pm: Mythology Monday

Tuesday, Nov. 5th

6pm: Tall-Tale Tuesday

Saturday, November 9th

2pm: Public Show -

The Hot and Energetic Universe

3pm: Public Show -

From Earth to the Universe

7pm: Public Show -

Seven Wonders

Tickets are just \$5! Get them online at [planetarium.truman.edu](http://planetarium.truman.edu), or at the door (cash only)

## METEOR OVER ST. LOUIS

### ROGUE METEOR STREAKS ACROSS THE MIDWEST

*Image Credit: EarthCam/American Meteor Society*

## FREE JOKES!

How do you know when the Moon is broke?

When she's down to her last quarter!

Where do astronauts hang out?

At the spacebar!

## FUN FACT!

If you added up all the thousands of **known asteroids** in our solar system to make one giant asteroid, it's total mass wouldn't even equal **10 percent of the mass of our Moon.**

On Monday, November 11, a meteor streaked across the skies of Missouri. It was sighted around 8:52 pm and flew east to west over several states in the Midwest. The meteor is believed to have impacted somewhere around the area of Wellsville, Missouri. In addition to the bright light, a lot of the reports also heard a loud boom. This meteor occurred during the Taurid Meteor Shower, which runs from October 20 to November 30. This meteor shower is known for being long lasting a producing brilliant, fiery meteors.

### STUDY TIP!

Finals season is quickly approaching! When you find yourself drowning in final projects and last minute cram sessions, take a moment to contemplate the vastness of space. To the universe, your exam is merely a blip in time, a moment surrounded by other moments. It means nothing. Also, flashcards are pretty good.
